SELCO Foundation is a not-for-profit organization which is focused on field-based Research and Development and ecosystem building for deployment of clean energy solutions that alleviate poverty in tribal, rural and urban poor areas. The organization works closely with practitioners in the social sector, energy entrepreneurs and partners from various developmental sectors. SELCO

Foundation has pioneered the delivery of sustainable energy to the poor in India in a manner that creates assets and results in long term poverty alleviation. These sustainable energy driven solutions increase incomes, improve quality of life, and alleviate poverty.

SELCO Foundation has launched a program to strengthen delivery of healthcare for over 170 million people by reliably and sustainably powering 25,000 public health facilities in remote, rural, climate and socio-economically vulnerable regions across 12 states in India by 2026.

SELCO Foundation's internal evaluation process for the Energy for Health program involves collecting baseline, midline, and endline data. The solar power installation is a phased process due to the large number of health facilities and varying district readiness of solar installation. This means that within a single state, different facilities may be at different stages of the solar implementation.

Consequently, this Terms of Reference (ToR) outlines the data collection requirements for all, baseline, midline and endline evaluations across a select group of facilities.

Scope of Work/Assignment

The ToR's objective is to bring on board an agency/agencies to collect baseline, midline and endline data for the SELCO Foundation Energy for Health intervention (*note that different health facilities are at different stage of implementation, hence some facilities needs baseline data collection, some midline and some health facilities need endline data collection*) . The agency is required to provide a comprehensive work plan and/or movement plan before beginning data collection, along with daily updates on the status of data collection in the state and the real-time sharing of data. It's important to emphasize that the data will undergo validation, and in case of any discrepancies, enumerators and supervisors are expected to communicate with the centre to resolve and rectify them.

The agency's main responsibility is collecting data at listed Energy for Health sites. The agency will work under the technical supervision of the Program Manager – Monitoring and Evaluation, SELCO Foundation.

The agency's specific responsibilities include –

- Recruitment, supervision and replacement (if required) of enumerators in their team, to ensure that the quality standards set during the training are met
- Providing translation support during the training
- Submitting a detailed field data collection work plan and/or movement plan
- Ensuring that the enumerators have appropriate digital devices for data collection
- Providing daily updates on the data collection process using a tracker sheet
- Flagging challenges and issues faced during data collection immediately to the SELCO Foundation PoC
- Maintaining strict adherence to the timeline agreed upon with SELCO Foundation
- Responsible for updating of translation of the Assessment Tools if required

SELCO Foundation will be responsible for:

- Uploading/updating the data collection tools in both English and Local Language of the respective state in Kobo App
- Providing access to the app that will be used to collect data
- Providing training on the data collection components, which are observations, staff and patient surveys, and data entry from the facility registers

Tasks, activities and deliverables.

Field Supervisor:

- Participate in an in-depth training on the data collection tool.
- Plan field data collection activities with enumerators.
- Update the tracker sheet daily.
- Flag challenges and issues faced during the data collection to the SELCO Foundation PoC.

Field enumerators:

- Participate in an in-depth training on the data collection tool.

- Collect data ensuring:
 - Good quality data is collected
 - Confidentiality is maintained
 - All sections of the questionnaires are filled out

Location / health facilities for data collection:

Field enumerators:

- Excellent interviewing skills especially in the social / developmental sector (desired).
- Prior experience in data collection and research activities (desired).
- Excellent verbal communication skills in local language (required).
- Flexible and willing to travel independently in remote regions (required).

Note: *The agency should submit the list of enumerators with their CVs and copies of qualification certificates.*

Duration of the project

The data collection for baseline needs to be completed before October 2025. Midlines and endline data collection are scheduled from October 2025 through February 2026 (timelines and schedule will be discussed at the time of agreement with the agency and is subject to the cluster applied for).

Baseline data collection

- The data collection will be done in Maharashtra and Nagaland states separately and will consist of facilities in 2 Districts in Maharashtra and 17 districts in Nagaland. After data collection the agency will have one week to share the final data in the format requested by SELCO Foundation. SELCO Foundation will then take one week to validate the data.

Midline data collection

- The data collection will be done in Manipur, Mizoram, Nagaland, Gujarat, Karnataka, Sikkim, and Assam as per the list of health facilities provided in the Annexure. After data collection the agency will have one week to share the final data in the format requested by SELCO Foundation. SELCO Foundation will then take one week to validate the data.

Endline data collection

- The data collection will be done in Meghalaya, Mizoram and Karnataka states as per the list of health facilities provided in the Annexure. After data collection the agency will have one week to share the final data in the format requested by SELCO Foundation. SELCO Foundation will then take one week to validate the data.
