Defined benefit plans:

For defined benefit plans in the form of gratuity fund & Leave encashment, the cost of providing benefits is determined using the Projected Unit Credit (PUC) actuarial method, with actuarial valuations being carried out at balance sheet date. Actuarial gains and losses are recognized in the Statement of Profit and Loss in the period in which they occur. Past service cost is recognized immediately to the extent that the benefits are already vested and otherwise is amortized on a straight-line basis over the average period until the benefits become vested.
