### 1. About the Programmes:

The Champion Sites for Enterprise initiative in East Khasi Hills and Ri Bhoi districts has identified eight grassroots enterprises that demonstrate strong potential as regional showcase models. These enterprises represent diverse value chains and practical, locally anchored entrepreneurship pathways. While their operational journeys and impact are evident on the ground, there is currently no cohesive visual identity or structured communication framework that positions them as aspirational, market-ready champions within their communities.

To strengthen visibility, credibility, and ecosystem learning, a comprehensive design and IEC intervention is proposed. This will translate enterprise processes, growth pathways, and impact narratives into accessible visual formats, including business identities, community-facing process posters or infographics, on-ground visibility assets, and/or a consolidated case study booklet. The objective is to transform lived enterprise journeys into durable, all weather-ready visual impact stories that enable community inspiration, partner capacity building, replication planning, and strategic programme communication.

## **2. Objective:**

The objective of this assignment is to develop cohesive and context-responsive visual identities for **eight Champion Sites**, translate their enterprise journeys into accessible visual “impact stories” for community engagement, strengthen their on-ground visibility and credibility through durable, monsoon-ready IEC assets, and create structured design documentation that supports ecosystem learning, replication, and broader programme communication.

## **3. Scope of Work**

The selected agency/consultant will undertake end-to-end design and IEC development for **eight (8) Champion Sites** for Enterprise in East Khasi Hills and Ri Bhoi districts. The scope includes:

- Identity Design: Development of business identity kits for each enterprise, including logo suite, colour palette, typography system, and basic brand usage guidelines in vector and digital formats.
- Information & IEC Design: Translation of field documentation into visually compelling process and impact posters for community display, along with the design of a high-quality synthesis case study booklet compiling all eight enterprise journeys
- Professional Photography: Capture and delivery of 200+ professionally shot and colour-graded images (JPEG and RAW), covering entrepreneur profiles, products, processes, and ecosystem context.
- Production & Fabrication Oversight: Design and supervision of weather-proof, monsoon-ready on-ground visibility assets (signage and banners), ensuring durability and quality compliance.
- Multilingual Adaptation & File Handover: Incorporation of Khasi/Garo/Jaintia language validation, and submission of all final outputs in print-ready (PDF/vector) and digital formats, organized in a structured repository for future programme use.

## **4. Roles and Responsibilities**

The selected agency/consultant will be responsible for the end-to-end planning, design, production, and delivery of all visual identity and IEC components for the eight Champion Sites. Key responsibilities include:

- **Conceptualization & Design Strategy:** Develop an overarching visual framework that ensures consistency across all eight enterprises while retaining their unique identities and local cultural relevance.
- **Enterprise-Level Identity Development:** Design and finalize bespoke business identity kits (logo, color palette, typography, basic usage guidelines) in consultation with each entrepreneur and the programme team.
- **IEC & Information Design Execution:** Translate field data and enterprise processes into visually engaging process posters and impact storytelling formats suitable for community display and ecosystem learning.
- **Case Study Compilation:** Design, layout, and finalize a high-quality synthesis case study booklet (digital and print-ready) covering all eight champion enterprises.
- **Production & Quality Oversight:** Depending on project brief – actuals to be borne by SELCO Foundation) Recommend appropriate materials and supervise fabrication of weather-proof, monsoon-ready signage and visibility assets to ensure durability in Meghalaya's climatic conditions.
- **Language & Format Compliance:** Coordinate language validation (Khasi/Garo/Jaintia), incorporate feedback through defined review stages, and submit all outputs in required print-ready and digital formats within the agreed timeline. In case the agency is not based out of Meghalaya, SELCO Foundation will coordinate for translations.
- **Coordination & Reporting:** Maintain regular communication with the programme team, adhere to milestone timelines, and provide periodic progress updates until final sign-off.
